lockOFF® IN DETAILS

IN A CRISIS SITUATION

It is necessary to act quickly, to save time and seek shelter while waiting for help.

lockOFF® allows to block a door (with or without lock) in a few seconds, in order to avoid any kind of intrusion in case of danger or crisis situation (terrorist attacks, social conflicts...).

Thanks to lockOFF®, the room is secure quickly and efficiently.

Easy to use, lockOFF® system can be installed and uninstalled by an adult or a child in a matter of seconds.

lockOFF® provides additional protection by keeping the door still despite any form of pressure. It allows to practice a leverage effect between the door and the floor in order to make it immobile.

The metal tongue designed to be positioned under the door to secure, allow Police forces to detect the device and the containment of the room.
